

Lead Finder Jack – Cloud Company Module

Lead Finder Jack – Cloud is part of your Sales Dynamite Jack package. This training will show how to use the **Company** module.

First, you will need to log in at <https://my.leadfinderjack.com/>.

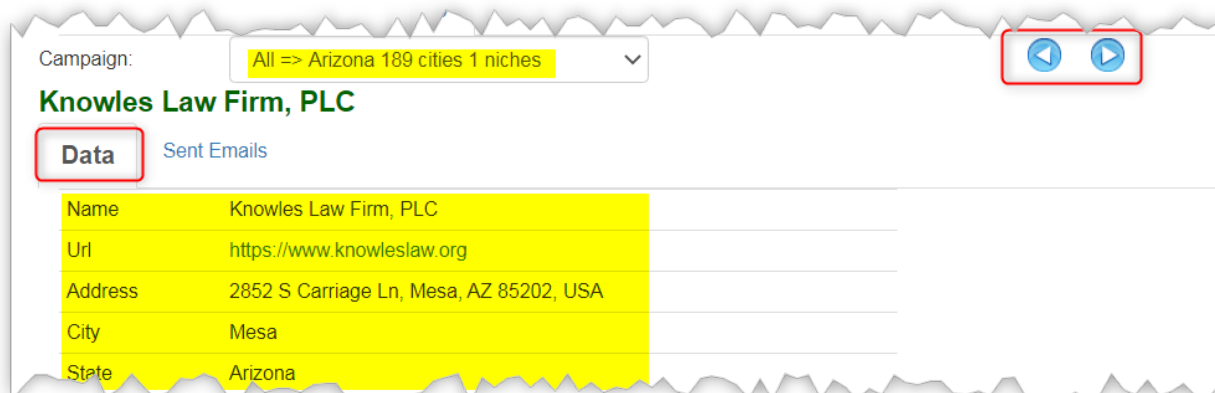

Once you're logged in, click on the **Company** tab.

The **Campaign** field at the top lets you select a campaign (list of companies from one of your searches) from a dropdown menu.

With a **Campaign** selected, you will see the **Data** screen for each company found in that campaign list. Use the **back and forward arrows** to scroll through the companies and see all the company details for each one.

A company's **Data** screen contains a lot of details. *This is the same screen that you can access by clicking the round "i" icon for that company in the **Campaigns** Module listing.*

When you are on the **Data** screen for a company, you can click on the **Sent Emails** tab to see what emails have been sent to this company, if any, and if any follow up emails are pending or not.

You can either click on the **Data** tab again to go back to the **Data** screen, or you can also click on the **back and forward arrows** while in the **Sent Emails** tab to see the email status of other companies.

The company name is actually a clickable link that takes you to the company's website. (It doesn't matter if you are on the **Data** screen or the **Sent Emails** screen.)

This concludes the **Lead Finder Jack – Cloud: Company Module** PDF. The other modules will be covered in separate PDFs.
